

## *STEM education for the future*

**Professor  
Lindsey Conner**

Dean People and Resources  
College of Education,  
Psychology & Social Work  
Flinders University

The  
South  
Australian  
Institute for  
Education  
Research  
SAIER

[www.saier.org.au](http://www.saier.org.au)

**Free Lecture**

The STEM imperative is being promoted in all education sectors. In this presentation, Professor Conner will discuss the strategies that have emerged from the roundtables between education stakeholders and the Office of the Chief Scientist for improving students' engagement in STEM as a pathway to careers, some of which are not known yet. Implications for integrated learning and teacher education will also be discussed more broadly.

**When:** **Tuesday 13 March 2018, 7:00 - 8:30pm**

**Where:** ACER Adelaide Office  
186B Pulteney Street, Adelaide SA 5000  
*(Nearest Parking: Flinders Street; Sudholz Place)*

**Register:** [Juliet.Young-Thornton@acer.org](mailto:Juliet.Young-Thornton@acer.org)  
or (08) 8206 8600
