Children starting school in 2020 will be graduating in 2033 and will be at retiring age in the year 2090. There is no certainty around what the world will look like in the next five years, much less the next 65 years, and yet we are charged with preparing students for that world and equipping them with the skills to be active, responsible and engaged citizens. Educators need to recognize that in order to prepare learners with the critical competencies to thrive in a changing world, transformational leadership is necessary. As the world continues to evolve, so must educational practice.

In this talk, Jane Danvers, the Principal of Wilderness School, will explore how leading learning for the future requires a strategic shift in mindset and actions to instigate change to meet a complex and dynamic future.

She will explore questions such as:

- What learning will matter in the lives children are likely to lead?
- What are the key drivers and challenges we should be paying attention to?
- What is the purpose of school?

WHEN: **Tuesday ~~X~~ 13 August 2019, 7:00 - 8:30pm**

WHERE: ACER Adelaide Office
186B Pulteney Street, Adelaide SA 5000
Nearest Parking: Flinders Street (metered parking, free after 6pm)
